HOW DO I VOTE?

An election worker will ask you to present an acceptable form of photo ID.

The election worker will find your name in the iPad (e-pollbook system). You will verify your information and provide a signature to complete the check-in process.

You will present the iPad receipt detailing your ballot style to another election worker. In return, you will receive an access code and blank ballot paper signed by the Election Judge.

You will select a voting booth, enter the access code, and insert the ballot paper. The machine will provide further instructions.

Once you have made your selections, the machine will print your ballot for you to review.

Then, you will walk your ballot to the scanner to finish voting.

Curbside Voting is available for voters physically unable to enter the polling place. Curbside voting follows the same process as inside the polling place, but your car becomes your voting booth;
